## **TESTIMONIAL FROM NDLOVUKAZI HIGH SCHOOL**

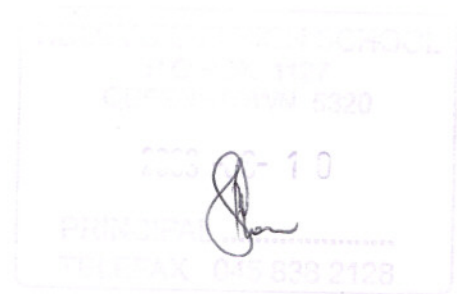

This is a way of showing a word of appreciation to HIV & ME, for the well conducted Teacher Training Workshop which was held at Ndlovukazi High School premises on the 3<sup>rd</sup> March 2009.

This program is enriching and empowering, and feel great honour at being selected to take part in the program. It will have a great contribution towards behavioural change, reduction of stigma and discrimination as well as improving on decision making of our Grade 8 learners, when it comes to relationships and reproductive health.

We also extend a great word of gratitude to the facilitator for being patient, approachable, down to earth and considerate and good at sharing his elaborate experience! Keep up the good work! South Africa has a great source of wealth in you! Together we will grow and prosper!

Thank you.
