

TESTIMONIAL

HIV & ME AND XSTRATA

We at the Ba-Mogopa institution feel greatly honoured to be included in the list of schools which participate in the Xstrata HIV & ME Programme. The Programme comes in handy as we do have some pupils who are affected or infected by HIV. The Programme also helps the educators on how to handle pupils with HIV.

Knowledge is power. HIV & ME and XSTRATA provide us with this powerful tool. When the pupils are taught on how to handle and combat the virus, then the spread of HIV can be prevented.

With the coming of 2010 Fifa World Cup, anything is possible : the spread of the pandemic, human trafficking, where you find that young girls especially are victims. With knowledge that the schools are equipped with against the virus, the future is ours.

FORE WARNED IS FORE ARMED

VIVA HIV & ME and XSTRATA, VIVA!!!
