

TESTIMONIAL FOR YOLANDA NAUBO

22 APRIL 2010

HIV & ME visited my school (Botthabelo High) on 15th.04.10 and again on 22nd.04.10. The visit aimed at helping my school with information in L.O. and NS. The information we got intensified the educators who attended the workshop. The impressing thing about it was that the HIV & ME topics are in line with the Learning Areas that the school is doing, and this becomes as intensifying as needed.

The second visit was more interesting and enjoyable because learners participated with interest and very willing. We hope to have such visits more often and with more practical topics.

Finally, the school would like to thank X-strata and HIV & ME for putting us in their programme, it really meant a lot to us.

Thanking you very much.

MVILA G. J. (H.O.D. — L.O.)
